PROFESSIONAL SUMMARY

Full Stack Web Developer and IT leader with 10+ years of experience building scalable, secure web applications and managing IT infrastructure and teams. Specialized in PHP/Laravel development, third-party API and AI integration, and cloud and server administration on Google Cloud Platform, DigitalOcean, and VMware. Proven record of leading in-house development teams, delivering business-critical systems, and automating operations with AI-powered workflows.

TECHNICAL SKILLS

- **Languages & Frameworks** — PHP, Laravel, MySQL, MSSQL, RESTful API design, WordPress plugin development
- **AI & Automation** — n8n workflow orchestration, Large Language Model (LLM) integration, OpenAI API, AI-powered chatbots, document processing, intelligent agents
- **Integration** — Third-party API and webhook integration; ERP, CRM, HRIS, inventory, accounting, and procurement system integration
- **Cloud & DevOps** — Google Cloud Platform (GCP), DigitalOcean, Docker, Kubernetes, VMware ESXi, Git, Bitbucket
- **Databases** — Database design, optimization, administration, backup strategies, and performance tuning (MySQL, MSSQL)
- **Systems** — Windows and Linux server administration, deployment, and virtualization
- **Security** — OAuth, role-based access control, data encryption, protection against SQL Injection, XSS, and CSRF

PROFESSIONAL EXPERIENCE

IT Manager

June 2022 – Present

Brookside Farms Corporation — Tarlac, Philippines

- Supervise and guide IT personnel in executing daily tasks and responsibilities.
- Lead the in-house web development team to design and implement systems used across the company.
- Oversee Application and Database Servers, ensuring availability, security, and optimal performance.
- Manage and optimize Google Cloud Platform (GCP) resources for scalable, reliable, and cost-effective infrastructure.
- Administer and maintain VMware ESXi servers for efficient virtualization and resource allocation.
- Ensure high availability of local servers and conduct regular network and server health checks.
- Conduct quarterly performance evaluations of IT and developer personnel, providing feedback and growth plans.

IT Supervisor

October 2019 – June 2022

Brookside Farms Corporation — Tarlac, Philippines

- Supervised and mentored IT personnel, ensuring effective delegation and performance in daily tasks.
- Led the in-house web development team in building systems that streamlined operations and boosted productivity.
- Managed Application and Database Server performance, availability, and security.
- Optimized GCP resources and administered VMware ESXi servers for reliable, cost-effective infrastructure.
- Conducted regular network and server health checks, resolving issues promptly.

IT Specialist

October 2018 – October 2019

Brookside Farms Corporation — Tarlac, Philippines

- Led the in-house web development team in designing scalable, efficient company-wide systems.
- Managed and maintained local servers, ensuring optimal performance and security.
- Coordinated regular network and server health assessments to troubleshoot and resolve issues proactively.

Full Stack Laravel Developer

December 2023 – June 2025

Smargasy Inc. — Florida, USA (Remote)

- Developed server-side logic, RESTful APIs, and backend functionality, implementing business logic and data processing.
- Optimized database queries and application performance.
- Integrated third-party services including payment gateways, authentication providers, and cloud services; handled webhooks and asynchronous processing.
- Implemented security measures against SQL Injection, XSS, and CSRF, and managed OAuth and role-based access control.
- Managed code repositories with Git and Bitbucket, performing code reviews, pull requests, merges, and deployment workflows.
- Integrated AI models for text, image, and audio transcription, and built automation workflows using AI-generated content.
- Collaborated with the development team and contributed to project documentation and knowledge sharing.

IT Instructor

April 2014 – May 2016

Advance Institute of E-Commerce — Tarlac, Philippines

- Taught Information Technology courses for 1st- and 2nd-year college students, building strong foundations in core IT concepts.
- Developed and delivered lesson plans and instructional materials aligned with course objectives.
- Used hands-on labs, lectures, and digital resources to accommodate different learning styles.
- Provided academic support through tutorials, feedback sessions, and mentoring; assessed performance via exams, projects, and presentations.

EDUCATION

BS in Information Technology

2009 – 2014

Tarlac State University — Tarlac City, Tarlac

CORE COMPETENCIES

Analytical thinking, problem-solving, and creative decision-making, backed by strong interpersonal and collaboration skills. Communicate ideas clearly, manage time efficiently, adapt to dynamic environments, and handle multiple priorities without compromising quality.

Key strengths: Problem Solving • Project Management • Time Management • Adaptability • Resourcefulness • Self-Motivation • Collaboration • Professionalism
